

Job Title: Intermediate Architect/Technician

Firm Profile: Larkin Architect Limited is a small, values-based practice, with a focus on work that contributes to the dignity of the human person, their communities, and the environment. We have an expertise with places of worship, adaptive re-use, historic restoration, educational environments, and increasing work in the long-term care, hospice care, and affordable housing sectors. Each design is approached from first principles to create a client-centered and project specific response. The practice has an emphasis on environmental sustainability and the long-term life cycle impact of our designs.

Summary: This position is ideally suited to someone with 3-7 years of experience looking for a new challenge as project architect/project manager. Ours is a non-hierarchical, respectful, and casual, but professional open studio environment. There is a strong emphasis on professional development, experimentation, and skills development. Current projects needing staffing include a new long-term-care facility designed to passive house standards, adaptive re-use of heritage buildings, new and enlarged places of worship, and heritage restoration. The successful candidate will be assigned projects aligned with their interest and skillset.

Skills:

- Strong communication skills and ability to work in a small office.
- Architectural Degree or Architectural Technologist degree, and preferably registered with the OAA. Licensure an asset but not required.
- Demonstrated ability to work independently to meet project deadlines
- Demonstrated professional experience with Revit on large multi-phase projects, and/or heritage documentation including point cloud modelling
- Familiarity and strong understanding of the building code.
- Experience with envelope detailing to high performance standards and building science principles.
- Ability to research and experiment with building products and materials
- Demonstrated contract admin experience
- Proficiency with Heritage Principles and heritage construction an asset.
- Proficiency with Adobe Creative Suite an asset.
- Proficiency with rendering for client presentations an asset.
